

MOW AND GROW GREEN!

CLEAN AIR Force of Central Texas 2010 9th Annual Electric Lawnmower Discount Program

Did You Know?

According to the Environmental Protection Agency, gasoline powered lawn equipment is responsible for over 5% of our urban air pollution.

The Grass to Grow

Mowing less equals fewer emissions and clipping waste. **Buffalo grass** is a Texas native plant that is extremely drought resistant and requires minimal fertilizing and mowing. A grass which requires **less mowing** and fertilizer means a very air and earth friendly grass.

Recycling your Gas Mower?

You can take your old gas powered mower to be recycled at the following locations:

CMC Metal Recycling
710 Industrial Blvd.
Austin, TX 78745
512.442.2384

1704 Howard Lane
Austin, TX 78728
512.251.3407

www.cmcmetalrecycling.com

Please be sure to drain all oil and gas. Visit the link below for information on disposal of your mower's oil and gas.
